

Why Icynene?

The performance advantages of Icynene spray foam insulation add immediate and long-term value to any home. Discover how Icynene adds value to the typical family home.

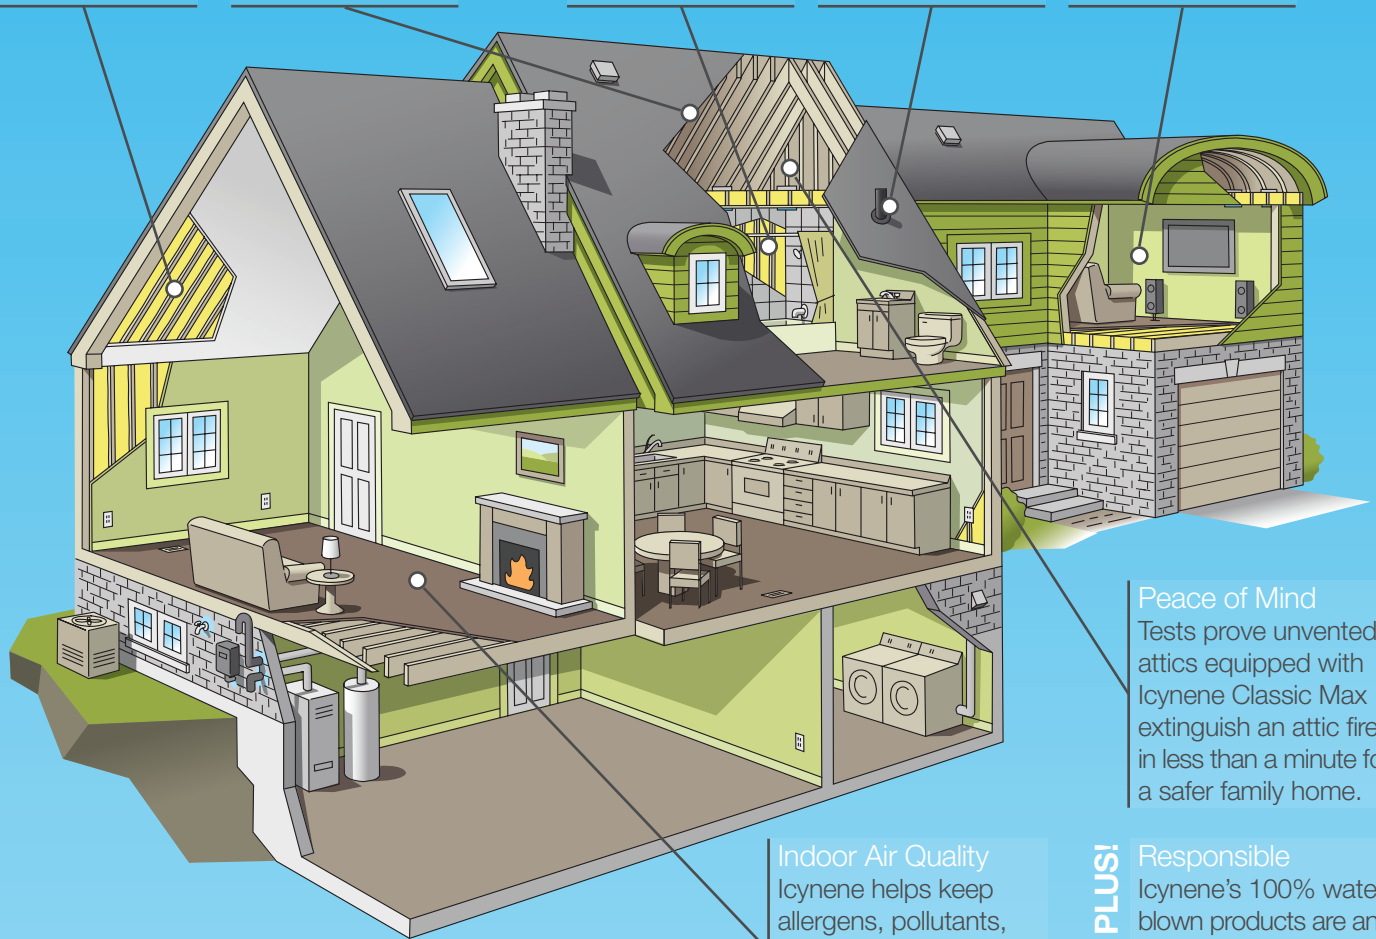

2-in-1 Solution
Icynene insulates and air seals, helping to reduce energy loss & prevent condensation-related problems like mold or mildew.

Controlling air loss
Icynene seals attic floors & roof decks to give homeowners more control of the temperature inside and control air leakage.

Moisture Control
Icynene's superior breathability allows it to dry & remain unaffected by minor wetting, continuing to perform optimally once dried.

Built tight, ventilate right
Icynene, along with a proper mechanical ventilation system, helps to control interior humidity levels.

Sound Control
Icynene helps to dampen noise transfer for a quieter space to live, play & work making it ideal for media rooms or playrooms.

Peace of Mind
Tests prove unvented attics equipped with Icynene Classic Max extinguish an attic fire in less than a minute for a safer family home.

Indoor Air Quality
Icynene helps keep allergens, pollutants, mold & moisture out of the home for an improved indoor living environment.

PLUS! **Responsible**
Icynene's 100% water-blown products are an environmentally sensitive option for conscious homeowners seeking to reduce their footprint.
